Custom Stairwell Photoluminescent Marking Systems

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time.
Current pricing is specified on our webstore: www.afterglowdirect.com

Custom Stairwell Photoluminescent Marking Systems

We specialize in designing custom Photoluminescent Egress Marking Systems for stairwells. These Marking Systems are customized in accordance with the IBC 2009, or NFPA 101 2009 Edition. We use a wide variety of the best products available to design our systems. These systems drastically speed up the evacuation process of buildings in the event of an emergency or power outage.

System markings include: handrails, steps, landings, doors, obstruction markings, exits, stair rise, etc.

We work closely with our clients to determine the best application for their situation.

Cost determined by walkthrough and customers needs. Please call (877) AFT-GLOW or email us at www.afterglowdirect.com to schedule a walkthrough.

Photoluminescent Building Safety Paint and Signs

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time.
Current pricing is specified on our webstore: www.afterglowdirect.com

IBC 2009 Compliant, High Performance, Photoluminescent Green, Building Safety Paint

High performance photoluminescent paint kit consisting of a white base coat, tough epoxy green glowing photoluminescent coat with integrated sealer, and a very durable top coat. Pale green colored under normal light. Ideal for floor applications in exit stairwells where IBC 2009 Photoluminescent Safety Markings are specified. This product complies with Section 1024.4 of the IBC 2009. Extremely economical when compared to tape products.

Part Number: **HPPBP01-IBCK-P**
 Unit: **Gallon Kit**
 Price: **\$899.00**

NYC MEA Approved, High Performance, Photoluminescent Green, Building Safety Paint

High performance photoluminescent paint kit consisting of a white base coat and a tough epoxy green glowing photoluminescent coat with integrated sealer. Pale green colored under normal light. Ideal for floor applications in exit stairwells where other products may not hold up over time. This product has been approved by the NYC Department of Buildings and assigned MEA # 387-07-M. Extremely economical when compared to tape products.

Part Number: **HPP012DGNK-P**
 Unit: **Gallon Kit**
 Price: **\$899.00**

High Performance Photoluminescent Green Marking Paint

High Performance photoluminescent green marking paint kit consists of a white base coat and a tough epoxy glowing photoluminescent coat with integrated sealer. Pale greenish-white under normal light, but produces a bright green glow when the lights are out. Our AfterGlo® Brand Photoluminescent Paint is ideal for filling lines and characters engraved into flat or curved surfaces where the lines and characters need to be visible in low light situations. Suitable for filling specialty engravings and markings and a good replacement for AA-3059 type paints. Our AfterGlo® Brand latex PL paint kits are available in 2 fl-oz., 4 fl-oz., 8 fl-oz., 16 fl-oz., and 32 fl-oz. sizes.

Part Number	Size	Unit	Price
HPP012DGNK-P002	2 OZ	Each	\$49.95
HPP012DGNK-P004	4 OZ	Each	\$94.95
HPP012DGNK-P008	8 OZ	Each	\$164.99
HPP012DGNK-P016	16 OZ	Each	\$249.99
HPP012DGNK-P032	32 OZ	Each	\$349.99

Emergency Telephone 12" x 4"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **BS6000VGRE-P**
 Unit: **Each**
 Price: **\$19.58**

Breathing Apparatus Green 12" x 4"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **BS6050VGRE-P**
 Unit: **Each**
 Price: **\$19.58**

Emergency Equipment Green 12" x 4"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **BS6070VGRE-P**
 Unit: **Each**
 Price: **\$19.58**

Custom Severe Weather Area 4" x 6"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **BS6500VGRE-T**
 Unit: **Each**
 Price: **\$16.19**

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time.
 Current pricing is specified on our webstore: www.afterglowdirect.com

Shelter In Place Sign 8" x 4"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **BS6500VGRE-P (Green Letters)**

Unit: **Each**

Price: **\$13.10**

Part Number: **BS6500VRRE-P (Red Letters)**

Unit: **Each**

Price: **\$13.10**

Safe Room Sign Green 8" x 4"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **BS6510VGRE-P**

Unit: **Each**

Price: **\$13.10**

Exit Sign

The photoluminescent layer is bonded with either a semi-rigid substrate, incorporating a foam polyester tape adhesive or a pressure sensitive (peel and stick) adhesive. The peel and stick adhesive is suitable for indoor applications on smooth surfaces while the foam polyester tape adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number	Size	Color	Type	Unit	Price
ES099LVGPE-P	12" x 8"	Green	Peel & Stick	Each	\$38.13
ES099LVGRE-P	12" x 8"	Green	Semi-Rigid	Each	\$38.13

ES099MVGPE-P	12" x 6"	Green	Peel & Stick	Each	\$28.60
ES099MVGRE-P	12" x 6"	Green	Semi-Rigid	Each	\$28.60
ES099MVRPE-P	12" x 6"	Red	Peel & Stick	Each	\$28.60
ES099MVRRE-P	12" x 6"	Red	Semi-Rigid	Each	\$28.60
ES099SVGPE-P	8" x 4"	Green	Peel & Stick	Each	\$13.10
ES099SVGRE-P	8" x 4"	Green	Semi-Rigid	Each	\$13.10
ES099SVRPE-P	8" x 4"	Red	Peel & Stick	Each	\$13.10
ES099SVRRE-P	8" x 4"	Red	Semi-Rigid	Each	\$13.10

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time. Current pricing is specified on our webstore: www.afterglowdirect.com

No Exit Green Semi-Rigid 8" x 8"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **ES100NVGRE-P**
Unit: **Each**
Price: **\$25.93**

Exit Green Semi-Rigid 12" x 6"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **ES1020VGRE-P (Right)**
Unit: **Each**
Price: **\$28.60**

Part Number: **ES1030VGRE-P (Left)**
Unit: **Each**
Price: **\$28.60**

Exit Person Green Semi-Rigid 12" x 6"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **ES1040VGRE-P (Right)**
Unit: **Each**
Price: **\$28.60**

Part Number: **ES1050VGRE-P (Left)**
Unit: **Each**
Price: **\$28.60**

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time.
Current pricing is specified on our webstore: www.afterglowdirect.com

Person Arrow Exit Green Semi-Rigid 12" x 6"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **ES1080VGRE-P (Right)**
 Unit: **Each**
 Price: **\$28.60**

Part Number: **ES1090VGRE-P (Left)**
 Unit: **Each**
 Price: **\$28.60**

Exit Person Door Green Semi-Rigid 12" x 6"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **ES1100VGRE-P (Right)**
 Unit: **Each**
 Price: **\$28.60**

Part Number: **ES1110VGRE-P (Left)**
 Unit: **Each**
 Price: **\$28.60**

Exit Stairs Down Green Semi-Rigid 12" x 6"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **ES1120VGRE-P (Right)**
 Unit: **Each**
 Price: **\$28.60**

Part Number: **ES1130VGRE-P (Left)**
 Unit: **Each**
 Price: **\$28.60**

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time. Current pricing is specified on our webstore: www.afterglowdirect.com

Exit Stairs Up Green Semi-Rigid 12" x 6"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **ES1140VGRE-P (Right)**
 Unit: **Each**
 Price: **\$28.60**

Part Number: **ES1150VGRE-P (Left)**
 Unit: **Each**
 Price: **\$28.60**

Exit Emergency Use Only Peel & Stick Green 12" x 4"

Exit Emergency Use Only Right Green 12" x 4" Photoluminescent Peel & Stick. Peel & Stick (Flexible) products employ a long-lasting pressure-sensitive adhesive film compatible with smooth finish surfaces.

Part Number: **ES1240JGPE-P (Right)**
 Unit: **Each**
 Price: **\$19.58**

Part Number: **ES1250JGPE-P (Left)**
 Unit: **Each**
 Price: **\$19.58**

Exit Emergency Use Only Semi-Rigid Green 12" x 4"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **ES1260VGRE-P (Right)**
 Unit: **Each**
 Price: **\$19.58**

Part Number: **ES1270VGRE-P (Left)**
 Unit: **Each**
 Price: **\$19.58**

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time.
 Current pricing is specified on our webstore: www.afterglowdirect.com

Exit Arrow Semi-Rigid Green 12" x 4"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **ES1280VGRE-P (Right)**
 Unit: **Each**
 Price: **\$19.58**

Part Number: **ES1290VGRE-P (Left)**
 Unit: **Each**
 Price: **\$19.58**

Fire Telephone Red Semi-Rigid 12" x 4"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **FF3000VRRE-P**
 Unit: **Each**
 Price: **\$19.58**

Fire Extinguisher Red Semi-Rigid 12" x 4"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **FF3030VRRE-P**
 Unit: **Each**
 Price: **\$23.49**

Fire Hose Red Semi-Rigid 12" x 4"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **FF3040VRRE-P**
 Unit: **Each**
 Price: **\$23.49**

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time.
 Current pricing is specified on our webstore: www.afterglowdirect.com

Fire Alarm Arrow Down Red Semi-Rigid 9" x 12"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **FF3210VRRE-P**
 Unit: **Each**
 Price: **\$43.58**

Fire Phone Arrow Down Red Semi-Rigid 9" x 12"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **FF3220VRRE-P**
 Unit: **Each**
 Price: **\$43.58**

Fire Hose Arrow Down Red Semi-Rigid 9" x 12"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **FF3230VRRE-P**
 Unit: **Each**
 Price: **\$43.58**

Fire Extinguisher Arrow Down Red Semi-Rigid 9" x 12"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **FF3240VRRE-P**
 Unit: **Each**
 Price: **\$43.58**

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time.
 Current pricing is specified on our webstore: www.afterglowdirect.com

In Case of Fire Pull Alarm Black/Red 4" x 4"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **FF3280VMRE-P**
 Unit: **Each**
 Price: **\$6.63**

In Case of Fire Use Stairs Black/Red/Green 6" x 6"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **FF3320VMRE-P**
 Unit: **Each**
 Price: **\$14.70**

Fire Extinguisher Red 6" x 6"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign. **Not suitable for military vehicle environment.**

Part Number: **FF3330VRRE-P**
 Unit: **Each**
 Price: **\$17.64**

Hose Reel Red 6" x 6"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **FF3340VRRE-P**
 Unit: **Each**
 Price: **\$17.64**

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time.
 Current pricing is specified on our webstore: www.afterglowdirect.com

Manual Pull Station Sign 4" x 8"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **FF3350VMRE-P**
 Unit: **Each**
 Price: **\$17.64**

Stair ID Sign Semi-Rigid 12" x 12"

NFPA Compliant Stairwell Identification Sign with **Black lettering on photoluminescent backing.**

Part Number: **NFPA01JKRE-P**
 Unit: **Each**
 Price: **\$136.60**

NFPA Compliant Stairwell Identification Sign with **Photoluminescent lettering on black backing.**

Part Number: **NFPA02JKRE-P**
 Unit: **Each**
 Price: **\$136.60**

Custom Printed Photoluminescent Sign Semi-Rigid

Custom Printed Sign with Custom Graphics, Custom Size up to 54" width and any length. **Priced per square inch.**

Part Number: **GPS001DMRE-P**
 Unit: **Each**
 Price: **Call for Pricing**

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time. Current pricing is specified on our webstore: www.afterglowdirect.com

Blank Sign

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number	Size	Unit	Price
BL1516VBRE-P	16" x 15"	Each	\$46.08
BL1011VBRE-P	11.5" x 10.5"	Each	\$23.40
BL8511VBRE-P	11" x 8.5"	Each	\$18.20

You Are Here Sign

Custom YAH Sign. Photoluminescent backing with custom egress route graphic and protective acrylic cover plate.

Part Number: **YAH001VMRE-P (11" x 8.5")**
 Unit: **Each**
 Price: **\$150.00**

Part Number: **YAH002VMRE-P (16" x 15")**
 Unit: **Each**
 Price: **\$168.87**

Make Your Own Photoluminescent "You Are Here" Acrylic Sign Kit

Customize your own photoluminescent "You Are Here" acrylic sign using our do-it-yourself kit. The kit produces an 11" x 8.5" sign with a photoluminescent backing, under a customized egress route printed on transparency film, which is sandwiched within a protective acrylic cover plate.

Part Number: **YAHM03VMRE-P**
 Unit: **Each**
 Price: **\$29.82**

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time.
 Current pricing is specified on our webstore: www.afterglowdirect.com

UL-924 Listed Photoluminescent Exit Signs

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time.
Current pricing is specified on our webstore: www.afterglowdirect.com

Ecō UL 924 Exit Sign, 50' Viewing Distance, Steel, Single Face Wall Mount

UL-924 Rated Exit Sign - One-Sided Wall Mount Black Sign, 13" x 7.5" x .075". UL-924 rated signs specially tested for building standards compliance. In many jurisdictions, used in place of electrically powered exit signs. Signs rated for 50' line-of-sight viewing distances. **INTERIOR USE ONLY**

Part Number: **700100JKRE-P**
 Unit: **Each**
 Price: **\$ 91.94**

**Ecō UL 924 Exit Sign, 50' Viewing Distance, Steel, Single Face with Bracket**

UL-924 Rated Exit Sign - One Sided Black Sign With Mounting Bracket - 13" x 7.5" x .075". UL-924 rated signs specially tested for building standards compliance. In many jurisdictions, used in place of electrically powered exit signs. Signs rated for 50' line-of-sight viewing distances. **INTERIOR USE ONLY**

Part Number: **7001B0JKRE-P**
 Unit: **Each**
 Price: **\$107.54**

**Ecō UL 924 Exit Sign, 50' Viewing Distance, Steel, Double Face with Bracket**

UL-924 Rated Exit Sign - Two-sided Black Sign with Mounting Bracket - 13" x 7.5" x .075". UL-924 rated signs specially tested for building standards compliance. In many jurisdictions, used in place of electrically powered exit signs. Signs rated for 50' line-of-sight viewing distances. **INTERIOR USE ONLY**

Part Number: **7002B0JKRE-P**
 Unit: **Each**
 Price: **\$143.52**

**Ecō UL 924 Exit Sign, 50' Viewing Distance, Steel, Single Face Wall Mount**

UL-924 Rated Exit Sign - One-sided Wall Mount Red Sign - 13" x 7.5" x .075". UL-924 rated signs specially tested for building standards compliance. In many jurisdictions, used in place of electrically powered exit signs. Signs rated for 50' line-of-sight viewing distances. **INTERIOR USE ONLY**

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time.
Current pricing is specified on our webstore: www.afterglowdirect.com

Push Bar to Open Green Semi-Rigid 12" x 4"

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections on the sign.

Part Number: **BS6040VGRE-P**
 Unit: **Each**
 Price: **\$19.58**

LightRing® Door Knob Hardware Locator - Small

Door Knob Ring 2.6" I, 4.5" O Self-adhesive rigid vinyl products bond a photoluminescent layer to a semi-rigid ABS substrate and employ a long-lasting pressure-sensitive adhesive film designed for use on smooth surfaces.

Part Number: **DKR100VBRE-P**
 Unit: **Each**
 Price: **\$4.10**

LightRing® Door Knob Hardware Locator - Large

Door Knob Ring 3.6" I, 5.5" O Self-adhesive rigid vinyl products bond a photoluminescent layer to a semi-rigid ABS substrate and employ a long-lasting pressure-sensitive adhesive film designed for use on smooth surfaces.

Part Number: **DKR200VBRE-P**
 Unit: **Each**
 Price: **\$6.05**

LightRing® Door Knob Hardware Locator - Medium

Door Knob Ring 3.5" I, 4.75" O Self-adhesive injection-molded products employ a long-lasting pressure-sensitive adhesive film designed for use on smooth surfaces.

Part Number: **DKR300PBIE-P**
 Unit: **Each**
 Price: **\$5.82**

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time.
 Current pricing is specified on our webstore: www.afterglowdirect.com

Light Switch Cover Appliqué 2" x 3.75"

Photoluminescent light switch cover plate appliqué

Part Number: **LSC101JBPP-P**
Unit: **10-Pack**
Price: **\$23.75**

Door Lock Ring Hardware Locator 6" x 4.75"

Self-adhesive rigid vinyl products bond a photoluminescent layer to a semi-rigid ABS substrate and employing a long-lasting pressure-sensitive adhesive film designed for use on smooth surfaces.

Part Number: **DLR100VBRE-P**
Unit: **Each**
Price: **\$7.15**

Light Switch Cover 2.75" x 4.5"

Photoluminescent appliqué on standard cover plate

Part Number: **LSC100JBRP-P**
Unit: **10-Pack**
Price: **\$37.50**

Light Switch Cover 3.25" x 5"

Injection-molded photoluminescent cover plate

Part Number: **LSC102PBIP-P**
Unit: **10-Pack**
Price: **\$65.50**

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time.
Current pricing is specified on our webstore: www.afterglowdirect.com

Outlet Receptacle Cover Appliqué 2.75" x 4.5"

Photoluminescent Outlet Receptacle Cover Plate Appliqué

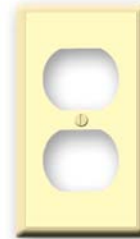

Part Number: **ORC100JBPP-P**
Unit: **10-Pack**
Price: **\$23.75**

Outlet Receptacle Cover 2.75" x 4.5"

Photoluminescent Appliqué on Standard Replacement Outlet Cover Plate

Part Number: **ORC101JBRP-P**
Unit: **10-Pack**
Price: **\$37.50**

Switch Plate Ring

Switch Plate Ring 3.875" x 5.625" Interior Uni-Directional Self-adhesive Rigid. Self-adhesive rigid vinyl products bond a photoluminescent layer to a semi-rigid ABS substrate and employing a long-lasting pressure-sensitive adhesive film designed for use on smooth surfaces.

Part Number: **SPR100VBRE-P**
Unit: **Each**
Price: **\$4.40**

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time.

Photoluminescent Tape Products

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time.
Current pricing is specified on our webstore: www.afterglowdirect.com

Directional Semi-Rigid Tape Green Arrows 1.5" x 25'

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections.

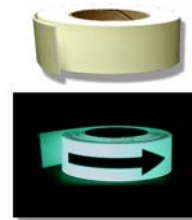

Part Number: **BS690AVGRE-P**
 Unit: **Each**
 Price: **\$120.10**

Directional Semi-Rigid Tape Color-matched Arrows 1.5" x 25'

Color matched arrows visible only in lights-out emergency. The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections.

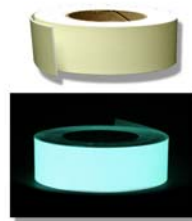

Part Number: **BS690IVBRE-P**
 Unit: **Each**
 Price: **\$120.10**

Non-Directional Semi-Rigid Blank Tape 1.5" x 25'

The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections.

Part Number: **BS690BVBRE-P**
 Unit: **Each**
 Price: **\$107.30**

Hazard-Marking Semi-Rigid Tape Green Stripes 1.5" x 25'

For Interior Use. The photoluminescent layer is bonded with a semi-rigid substrate, incorporating a foam polyester tape adhesive. The long-lasting adhesive is suitable for either smooth or rougher surfaces like CMU (Concrete Masonry Unit) blocks. This substrate material minimizes surface imperfections.

Part Number: **BS690HVBRE-P**
 Unit: **Each**
 Price: **\$107.30**

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time.
 Current pricing is specified on our webstore: www.afterglowdirect.com

Blank Self-Adhesive Flexible Tape 1.625" x 30'

Photoluminescent Peel & Stick Tape Interior Use. Peel & Stick (Flexible) products employ a long-lasting pressure-sensitive adhesive film compatible with smooth finish surfaces.

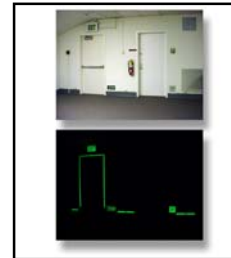

Part Number: **BS6952JBPE-P**
Unit: **Each**
Price: **\$57.50**

Door Outlining Strip 1" x 8'

Durable Photoluminescent Semi-Rigid Door Outlining Strip 1" x 8' with adhesive mounting system

Part Number: **DS81A0VBRE-P**
Unit: **Each**
Price: **\$16.20**

Blank Self-Adhesive Flexible Tape 1" x 25' for Handrails

25 feet of 1" wide, adhesive-backed AfterGlow® PL tape

NSN 9390 01 573 0835

Part Number: **NLN131JBPE-25Y**
Unit: **Each**
Price: **\$51.64**

Hazard-Marking Peel & Stick Tape Black Stripes (NYC) 50' x 1"

Flexible Tape with Black Stripes. Peel & Stick (Flexible) products employ a long-lasting pressure-sensitive adhesive film compatible with smooth finish surfaces. (NYC Approved)

EXIT FLT DK w/ ARROW Red 24" x 8"

Retroreflective Red Letters Photoluminescent Peel & Stick. Peel & Stick (Flexible) products employ a long-lasting pressure-sensitive adhesive film. Durable High-Tack adhesive adheres to virtually all surfaces.

Part Number: **NLN145JRPP-Y (Left Arrow)**
Unit: **10-Pack**
Price: **\$655.71**

Part Number: **NLN146JRPP-Y (Right Arrow)**
Unit: **10-Pack**
Price: **\$655.71**

HALON ACTG Red 6" x 4"

Retroreflective Red Letters Photoluminescent Peel & Stick. Peel & Stick (Flexible) products employ a long-lasting pressure-sensitive adhesive film. Durable High-Tack adhesive adheres to virtually all surfaces.

Part Number: **NLN147JRPP-Y**
Unit: **10-Pack**
Price: **\$195.00**

HALON Red 14" x 5"

Retroreflective Red Letters Photoluminescent Peel & Stick. Peel & Stick (Flexible) products employ a long-lasting pressure-sensitive adhesive film. Durable High-Tack adhesive adheres to virtually all surfaces.

Part Number: **NLN148JRPP-Y**
Unit: **10-Pack**
Price: **\$491.37**

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time.
Current pricing is specified on our webstore: www.afterglowdirect.com

PKP Red 5" x 4"

Retroreflective Red background with Photoluminescent letters, Peel & Stick. Peel & Stick (Flexible) products employ a long-lasting pressure-sensitive adhesive film. Durable High-Tack adhesive adheres to virtually all surfaces.

Part Number: **NLN149JRPP-Y**
Unit: **10-Pack**
Price: **\$96.88**

DAMAGE Red 13" x 4"

Retroreflective Red Letters Photoluminescent Peel & Stick. Peel & Stick (Flexible) products employ a long-lasting pressure-sensitive adhesive film. Durable High-Tack adhesive adheres to virtually all surfaces.

Part Number: **NLN150JRPP-Y**
Unit: **10-Pack**
Price: **\$302.38**

CONTROL Red 13" x 4"

Retroreflective Red Letters Photoluminescent Peel & Stick. Peel & Stick (Flexible) products employ a long-lasting pressure-sensitive adhesive film. Durable High-Tack adhesive adheres to virtually all surfaces.

Part Number: **NLN151JRPP-Y**
Unit: **10-Pack**
Price: **\$304.92**

BATTLE Red 14" x 4"

Retroreflective Red Letters Photoluminescent Peel & Stick. Peel & Stick (Flexible) products employ a long-lasting pressure-sensitive adhesive film. Durable High-Tack adhesive adheres to virtually all surfaces.

Part Number: **NLN152JRPP-Y**
Unit: **10-Pack**
Price: **\$324.47**

Pricing is effective as of the date on the cover page of the catalog but is subject to change at any time.
Current pricing is specified on our webstore: www.afterglowdirect.com

DECON Green 14" x 4"

Retroreflective Green Letters Photoluminescent Peel & Stick. Peel & Stick (Flexible) products employ a long-lasting pressure-sensitive adhesive film. Durable High-Tack adhesive adheres to virtually all surfaces.

Part Number: **NLN153JGPP-Y**
Unit: **10-Pack**
Price: **\$321.93**

REPAIR Green 14" x 4"

Retroreflective Green Letters Photoluminescent Peel & Stick. Peel & Stick (Flexible) products employ a long-lasting pressure-sensitive adhesive film. Durable High-Tack adhesive adheres to virtually all surfaces.

Part Number: **NLN154JGPP-Y**
Unit: **10-Pack**
Price: **\$324.47**

DRESSING Red 14" x 4"

Retroreflective Red Letters Photoluminescent Peel & Stick. Peel & Stick (Flexible) products employ a long-lasting pressure-sensitive adhesive film. Durable High-Tack adhesive adheres to virtually all surfaces.

Part Number: **NLN155JRPP-Y**
Unit: **10-Pack**
Price: **\$329.55**

STATION 14" x 4"

Retroreflective Letters Photoluminescent Peel & Stick. Peel & Stick (Flexible) products employ a long-lasting pressure-sensitive adhesive film. Durable High-Tack adhesive adheres to virtually all surfaces.

Part Number: **NLN156JRPP-Y (Red)**
Unit: **10-Pack**
Price: **\$327.01**
